Docker Hub:

Docker name: aceinfo/gsaads-prototype

The screenshot shows the Docker Hub interface for the repository `aceinfo/gsaads-prototype`. The browser address bar displays `https://registry.hub.docker.com/u/aceinfo/gsaads-prototype/`. The navigation bar includes links for `Browse Repos`, `Documentation`, `Community`, and `Help`, along with a search bar and a user profile for `aceinfo`. The repository page header shows the name `aceinfo / gsaads-prototype`, a 'Pull this repository' button, and a 'docker pull aceinfo/gsaads-prototype' command box. It also indicates the repository was 'Updated 1 week ago'. Below the header, there are statistics: 'No description set', 0 stars, 0 comments, and 1 pull. The main content area has two tabs: 'Information' (selected) and 'Tags'. The 'Information' tab shows 'No description set'. To the right, there are two sidebars: 'Properties' showing the creation date '2015-06-23 15:21:01' and the user 'aceinfo', and 'Settings' with options like 'Description', 'Webhooks', 'Collaborators', 'Mark as unlisted', 'Make Private', and 'Delete Repository'. At the bottom, there is a 'Comments' section with a plus icon and the text 'No comments available, be the first to comment.'
